

JUNE 2024

The Northern Berkshire Astronomical Society

Meets the first Wednesday of every month, at the
North Adams Public Library at 6 PM.

74 Church St. North Adams MA

Return of the Milky Way

With galaxies over in the West, we now start to see the Summer constellations and the Milky Way rising in the East. Hercules is almost overhead.

Constellations

AND - Andromeda - *the Chained Maiden*
 ANT - Antlia - *the Air Pump*
 AQL - Aquila - *the Eagle*
 AUR - Auriga - *the Charioteer*
 BOO - Boötes - *the Herdsman*
 CAM - Camelopardalis - *the Giraffe*
 CAS - Cassiopeia - *the Queen of Ethiopia*
 CEN - Centaurus - *the Centaur*
 CEP - Cepheus - *the King of Ethiopia*
 CNC - Cancer - *the Crab*
 COM - Coma Berenices - *Berenice's Hair*
 CRB - Corona Borealis - *the Northern Crown*
 CRT - Crater - *the Cup*
 CRV - Corvus - *the Crow*
 CVN - Canes Venatici - *the Hunting Dogs*
 CYG - Cygnus - *the Swan*
 DEL - Delphinus - *the Dolphin*
 DRA - Draco - *the Dragon*
 GEM - Gemini - *the Twins*
 HER - Hercules - *Hercules*
 HYA - Hydra - *the Water Snake*
 LAC - Lacerta - *the Lizard*
 LEO - Leo - *the Lion*
 LIB - Libra - *the Scales*
 LMI - Leo Minor - *the Little Lion*
 LUP - Lupus - *the Wolf*
 LYN - Lynx - *the Lynx*
 LYR - *the Harp*
 OPH - Ophiuchus - *the Serpent Bearer*
 PER - Perseus - *the Hero*
 PYX - Pyxis - *the Mariner's Compass*
 SCO - Scorpius - *the Scorpion*
 SCT - Scutum - *the Shield*
 SER - Serpens - *the Serpent*
 SGE - Sagitta - *the Arrow*
 SGR - Sagittarius - *the Archer*
 SEX - Sextans - *the Sextant*
 UMA - Ursa Major - *the Great Bear*
 UMI - Ursa Minor - *the Lesser Bear*
 VIR - Virgo - *the Maiden*
 VUL - Vulpecula - *the Little Fox*

How to Use the Chart

South is at the bottom, if you hold the chart “up” against the sky, facing South, then East will be to your left and West to the right. (Or if you hold the map upside-down and face North, East will be to the right, West to the left.)

On the chart, the orange dashed line shows the celestial Equator; the green dashed-dotted line the Ecliptic. The Milky Way is outlined with a blue dotted line.

Date	Time
Jun 1	11:00 PM (EDT)
Jun 8	10:30 PM
Jun 15	10:00 PM
Jun 22	9:30 PM
Jun 29	9:00 PM

Because of the Earth’s motion around the Sun, the time for this chart changes slowly over time, roughly 1/2 hour earlier every week:

Planets

We have no evening planets for a few more months.

However, two dwarf planets are hiding in plain sight: Haumea is in Boötes, and Makemake in Coma Berenices, though both are magnitude 17 objects, requiring long-exposure imaging to detect them.
